

Welcome from the Chairman

Dear visitor,

A warm welcome to the website of the Committee on Education and Science of the Assembly of the Republic.

We aim to provide detailed, thorough information about the functioning of this Committee and the work done by the Portuguese Parliament in the areas of education (including education levels and systems) and science (which includes research, technological development and innovation).

You can also give your opinion on a wide variety of aspects regarding the areas of this Committee and, above all, send your contributions to the documents under analysis before they are approved.

We therefore thank you for your suggestions, which you can make using the Committee's support office contact details on this web page.

Thank you for your visit!

Alexandre Quintanilha
